Navigation Flow
To the Digital Side (Al Lado Digital)

Mobile app for the older adult and the volunteer, desktop view for the municipal coordinator.
Screen codes match the wireframes (low-fi and hi-fi). Time runs from top to bottom.

Older adult · Celia

Mobile · sheets and notices on the left

Bottom bar
Inicio (A1)
Mis ayudas (C4)
Ayuda (A1m)

A4 «Cambiar» goes back to A2 or A3 to edit a step

Volunteer · Roberto, Sofía

Mobile

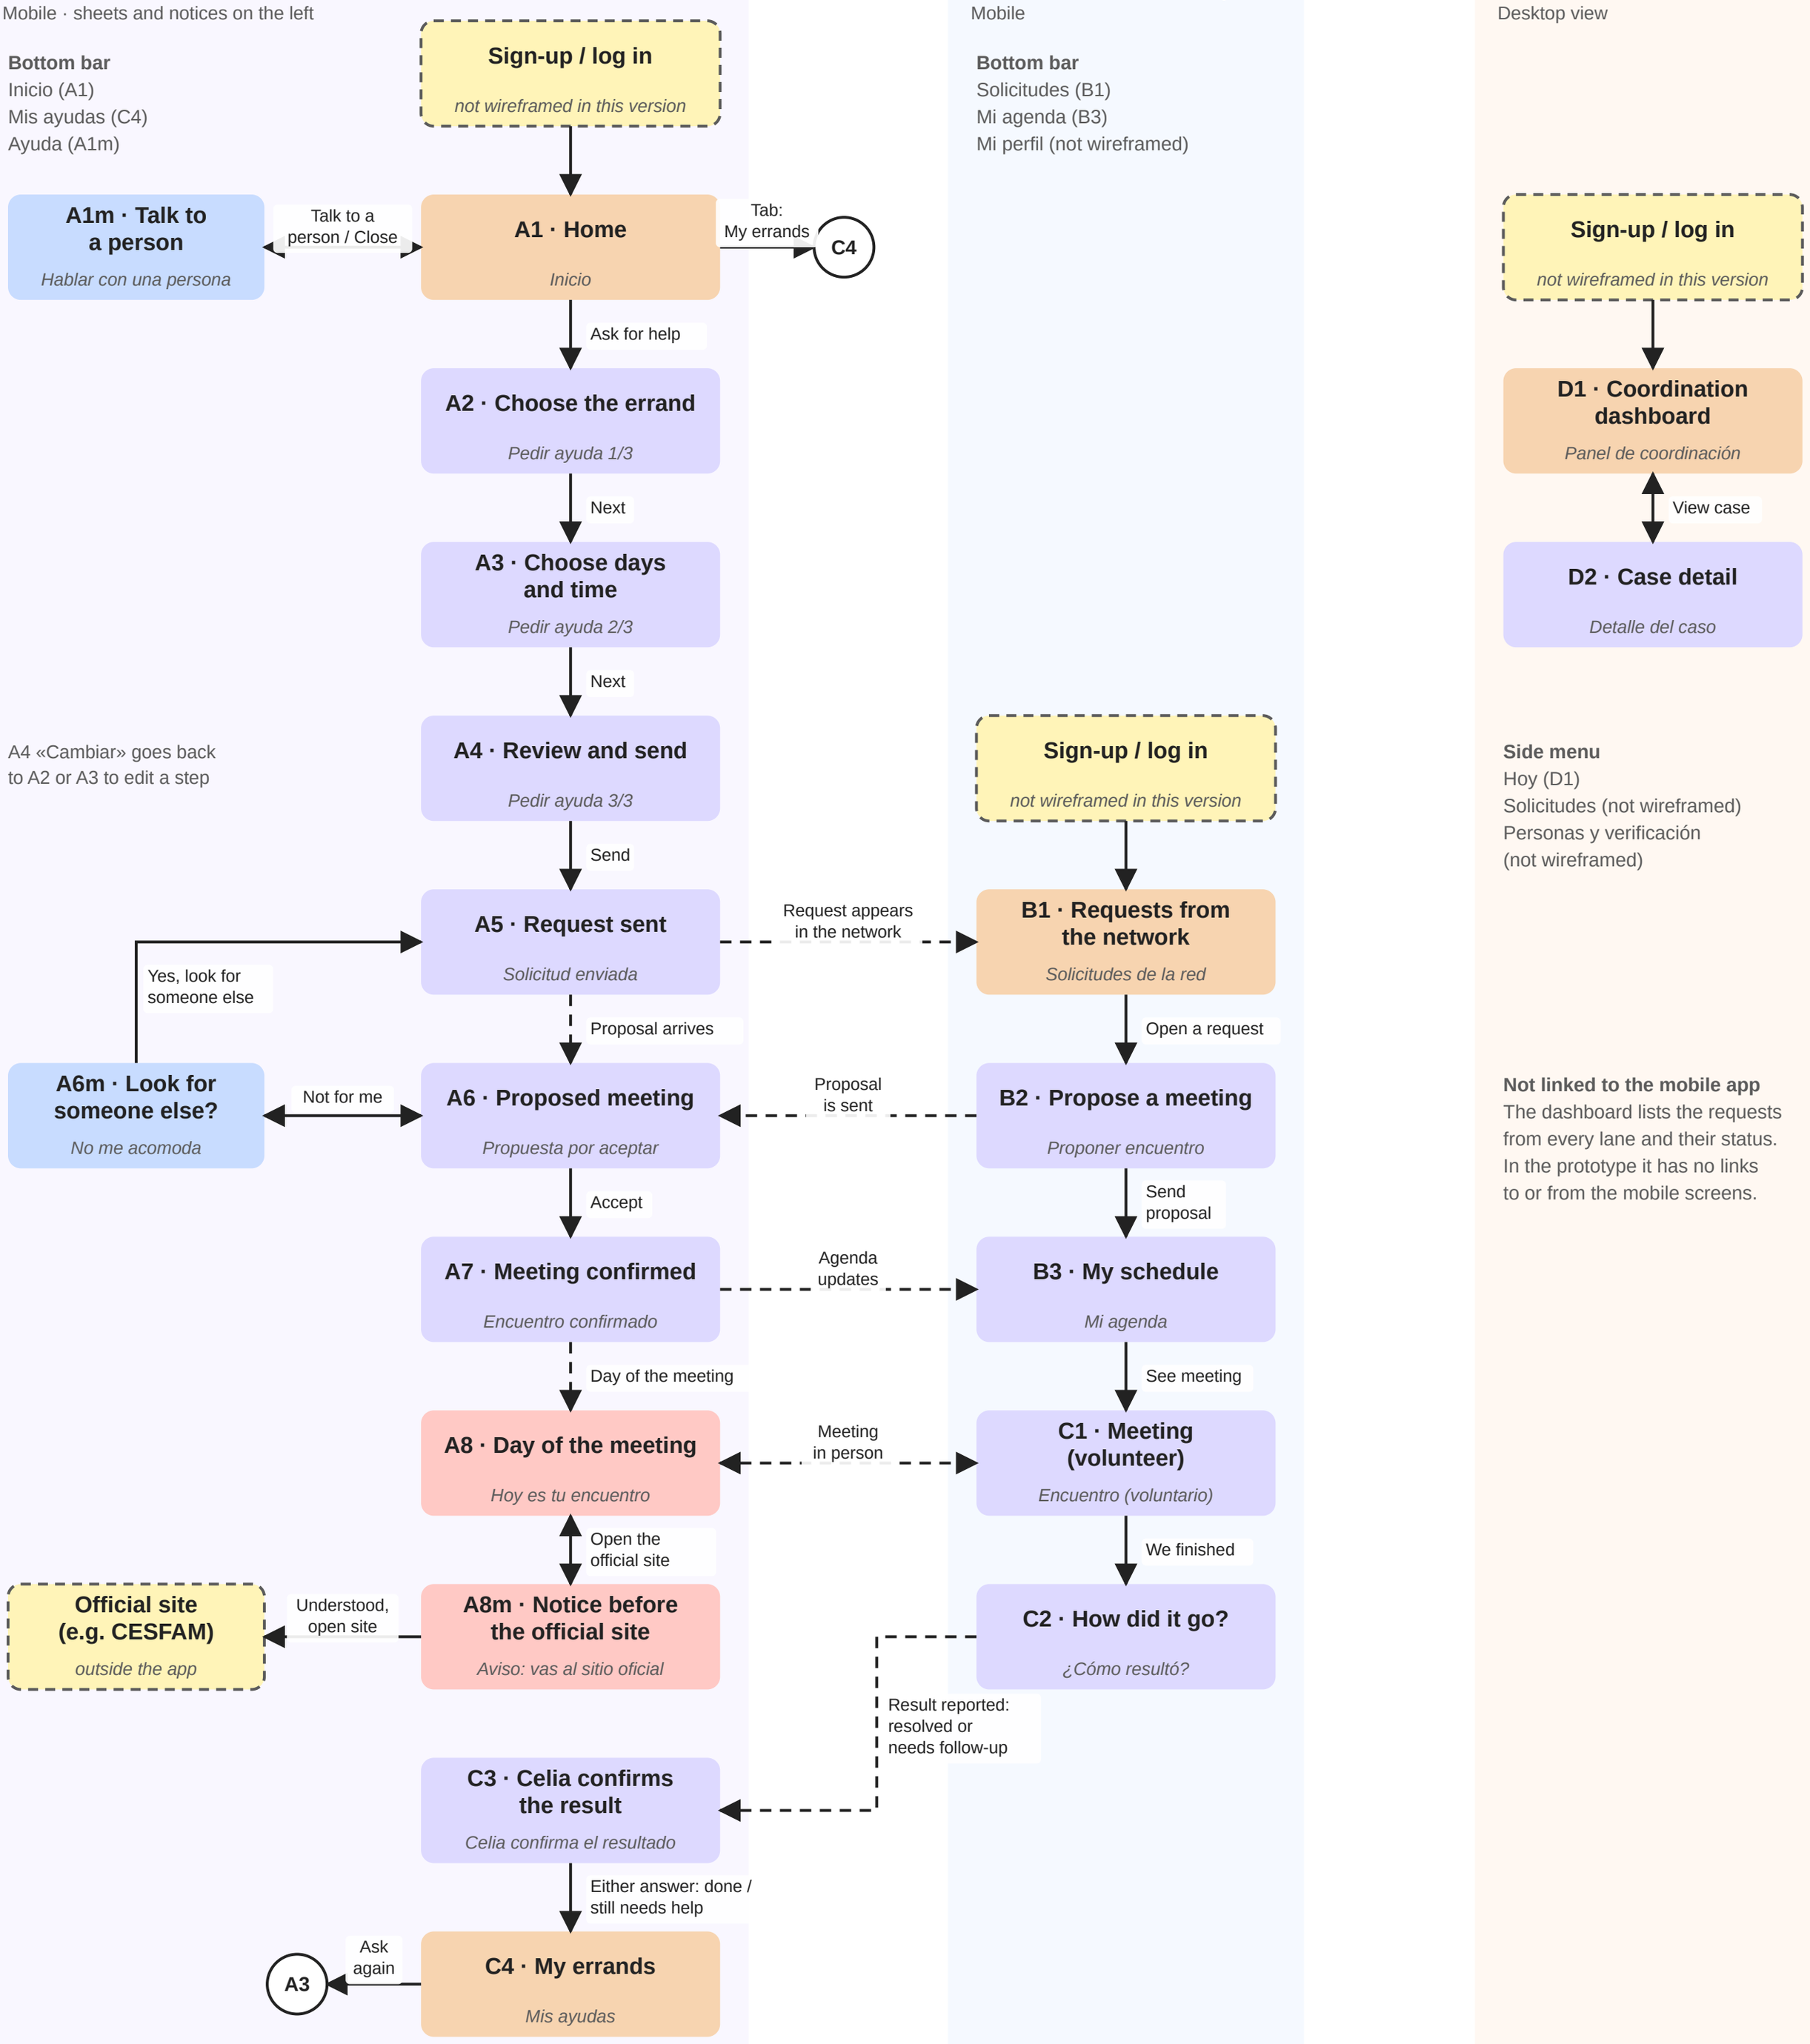

Bottom bar
Solicitudes (B1)
Mi agenda (B3)
Mi perfil (not wireframed)

Coordinator · Andrés

Desktop view

Side menu
Hoy (D1)
Solicitudes (not wireframed)
Personas y verificación (not wireframed)

Not linked to the mobile app
The dashboard lists the requests from every lane and their status. In the prototype it has no links to or from the mobile screens.

How to read this diagram

- Home or main screen of each role
- Step screen
- Sheet over a screen
- Trust moment: passwords stay with the person
- Outside the wireframes (dashed)
- User action (tap)
- Event between people or system event, not a tap (in Figma: «(Prototipo)» shortcuts)
- Continues on the screen with that code

Also in the prototype, not drawn: «Volver al inicio» (A5, A7) and «Volver» (A6) return to A1; the other Back buttons return one step.
«No puedo ir: hablar con alguien» (A7) and «Hablar con una persona» (A8) open A1m.
«Entendido, abrir sitio oficial» (A8m) leaves the app, so it has no link in the prototype.
In the UI but not wireframed: «¿Cómo funciona?» and «Mi próximo encuentro» on A1, Mi perfil, and the Solicitudes and Personas sections of the dashboard.
